## FdA Children and Young Persons

“

I've really enjoyed my time on the course. The tutors make time for me and nothing is too much trouble for them.

The tutors are knowledgeable and experienced and I know I am being taught by experts.

I left work to have my daughter and decided on a career change. I work part time as a Support Assistant and my work is flexible around my classes. I am living proof that you can work, study and raise a family at the same time. The workload is manageable and I know I am working towards my dream job. I am planning on going to university to complete my job up year and I eventually would like to work with pupils with special education needs. I am so pleased that I took the chance to develop myself in my career - it's an open door from here. ”
