

We are delighted to offer Apprenticeships in partnership with Spex4Less, an online provider of high quality prescription glasses, based in Hoylake.

Here at West Lancashire College we work collaboratively with employers to provide work based learning tailored to meet the needs of the business. Working

together ensures that Apprentices are well trained, up skilled and motivated.

Janet Styles, Director at Spex4Less commented: “We have offered Apprenticeships in partnership with West Lancashire College for three years. We have found the College and the process of Apprenticeships invaluable and have been able to offer all three Apprentices positions within the company.

A Professional Services Assessor from West Lancashire College visits our Apprentices regularly, provides quality 1-2-1 support, building their confidence and guiding them through their NVQ qualification. The relationship with our Assessor is excellent and we work very closely together and frequently communicate to ensure the Apprentice feels valued and progresses efficiently through their Apprenticeship framework.

This partnership approach ensures that our Apprentices are trained to high company standards, are integrated into the team and acquire relevant knowledge and skills while gaining their NVQ qualifications.

We are currently in the process of recruiting a new Apprentice and have not hesitated to work with West Lancashire College again to do this, they offer an excellent service throughout.”
