

Training Opportunities for the Health Care Sector

West Lancashire College offer a range of training and education programmes for staff employed in the health and care sector.

Apprenticeships

We offer Apprenticeships at both intermediate and advanced levels. The training develops skills in a range of care environments including hospitals, health centres, educational and community centres, residential homes and advice centres.

A range of courses to support your business

We also offer a range of professional courses which can be delivered onsite or on college premises dependant on the number of delegates.

- Emergency First Aid at Work
- Fire Marshal
- Infection Control
- Moving and Handling
- Paediatric First Aid
- Safe Handling of Medicines.
